

Switch 8

8-Port Gigabit Unmanaged Switch

Overview

The EnGenius ES108 is an 8-port Gigabit Switch, ideal for SMBs looking to enhance port density. It provides a plug-and-play experience with unmanaged ports, requiring no configuration for straightforward installation. This switch features a robust, fanless design for quiet operation and includes Energy Efficient Ethernet (IEEE 802.3az) that dynamically regulates power based on network traffic. Its non-blocking performance ensures efficient, seamless network connectivity.

Features & Benefits

- 8x GE ports for high-speed connections
- Plug and play and zero maintenance
- Ruggedized with metal housing design
- Fanless design with silent operation
- Energy Efficient Ethernet (IEEE 802.3az) which automatically detects network traffic and adjusts power consumption dynamically
- Non-blocking switching architecture

Technical Specifications

Technical Specifications
Port Standards
802.3u 100Base-TX Ethernet
802.3ab 1000Base-T Ethernet
Network Port - Gigabit Ethernet Ports
8x10/100/1000 Mbps Ports
Switching Capacity
16Gbps
Power Source
100 to 240 VAC, 50/60Hz
Physical Interface
Port Indicators
Link/Activity (per Ethernet port)

Environmental & Physical
Temperature Range
Operating: 32°F to 104°F (0°C to 40°C)
Humidity (Non-Condensing)
Operating: 5% - 90%
Device Dimensions & Weight
Device Dimensions & Weights
Weight: 227g
Length: 140 mm
Width: 67 mm
Height: 26 mm
Package Contents
1x ES Switch
1x Power Adapter
1x Wall mount screw
1x Quick installation guide

Hardware Overviews

Features and specifications subject to change without notice. Trademarks and registered trademarks are the property of their respective owners. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. Operation of this equipment in a residential area is likely to cause harmful interference in which case the user will be required to correct the interference at his/her own expense. Prior to installing any surveillance equipment, it is your responsibility to ensure the installation is in compliance with local, state and federal video and audio surveillance and privacy laws.
