

## DS-UPS600-R UPS

- Built-in AVR
- Super fast charging
- Wide input voltage range
- Overload protection
- Short circuit protection
- Surge protection

## ▪ Specification

| Power                 |                                                                                                                                                              |
|-----------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------|
| UPS Capacity          | 600 VA / 360 W                                                                                                                                               |
| Input                 |                                                                                                                                                              |
| Input Voltage Range   | 162 VAC to 268 VAC (220V)<br>170 VAC to 280 VAC (230V)<br>177 VAC to 290 VAC (240V)                                                                          |
| Input Frequency       | 50/60 Hz self-adaptive                                                                                                                                       |
| Plug Type             | Schuko                                                                                                                                                       |
| Output                |                                                                                                                                                              |
| Output Voltage Range  | 220/230VAC $\pm$ 10%                                                                                                                                         |
| Output Frequency      | 50/60 Hz $\pm$ 0.5 Hz self-adaptive                                                                                                                          |
| Transfer Time         | $\leq$ 10 ms                                                                                                                                                 |
| Waveform              | Simulated Sine wave                                                                                                                                          |
| Outlet Type           | Schuko                                                                                                                                                       |
| Outlet Number         | 2                                                                                                                                                            |
| Battery               |                                                                                                                                                              |
| Battery Type          | 12 V/7 Ah $\times$ 1, lead-acid battery                                                                                                                      |
| Recharge Time         | 4-6 hours recover to 90% capacity                                                                                                                            |
| Typical Backup Time   | Run time at 100w: 15-20 min                                                                                                                                  |
| Interface             |                                                                                                                                                              |
| Communicate Ports     | No                                                                                                                                                           |
| Protection            |                                                                                                                                                              |
| Full Protection       | Surge protection, Overload protection, Discharge protection, Short circuit protection                                                                        |
| Indicator             |                                                                                                                                                              |
| Display               | LED indicator<br>Line mode: Solid green led lighting<br>Battery mode: Solid yellow led flash<br>Fault mode: Solid red led lighting                           |
| Alarm                 | Battery mode: Sounding every 10 seconds.<br>Low battery : Sounding every second.<br>Over load : Sounding every 0.5 seconds.<br>Fault: Continuously sounding. |
| General               |                                                                                                                                                              |
| Operating Temperature | 0 °C to 40 °C (32 °F to 104 °F)                                                                                                                              |
| Operating Humidity    | 0% to 90% (non-condensing)                                                                                                                                   |
| Dimension             | 276.1 mm $\times$ 101 mm $\times$ 142 mm (10.9" $\times$ 3.98" $\times$ 5.59")                                                                               |
| Weight                | 4.25kg                                                                                                                                                       |

## ▪ Available Model

DS-UPS600-R

## ▪ Dimension

**Headquarters**

No.555 Qianmo Road, Binjiang District,  
Hangzhou 310051, China  
T +86-571-8807-5998
